2022

On Our Cover

Christi Belcourt, *The Wisdom of the Universe*, 2014.
Acrylic on canvas, Unframed: 171 × 282 cm.
©Christi Belcourt. Used with the kind permission of the artist.

As the planet takes the seasonal spring posture of regeneration, it brings me great pleasure to present this catalog to you. Additionally, it is an honor to feature and share the art of Métis visual artist and author Christi Belcourt on our cover. Regarding her artwork *The Wisdom of the Universe* she says, *All species, the lands, the waters are one beating organism that pulses like a heart. We are all a part of a whole.*

Just like the season itself, the wisdom of teachers and universal ideas assembled in the pages that follow offer an invitation for connection through intellectual stimulation and balance, and present a possible cure for isolation, stagnation, and winter hibernation. I hope to see you online and in the classroom in the weeks and months to come. Spring is here!

Lexington Community Education presents

Fighting Time

WITH AMY BANKS

Thursday, Jun 2, 2022 • 7:00-8:30 pm • Follen Church Society, 755 Massachusetts Ave, Lexington, MA • \$15 • SFIT

Unaware of the danger lurking on the periphery of the French Quarter, Drs. Ronald Banks and John Hakola made a tragic decision on the evening of April 29, 1979, to walk several blocks from the historic district to the Hyatt Regency. Inches from the safety of their hotel, they were accosted by two young men—a scuffle ensued, a shot was fired, and Dr. Banks lay dead on the sidewalk. *Fighting Time* is a tale of two families whose lives became entangled in that moment of trauma. Isaac

Knapper, a sixteen-year-old boy from a nearby housing project, was wrongfully convicted of the murder and sentenced to life imprisonment without parole in the Louisiana State Penitentiary. In Maine, the Banks family believed justice had been served by Isaac's conviction, and his exoneration in 1992 unleashed a sea of confusion and grief. In 2015, Dr. Banks' daughter, Amy, a psychiatrist and trauma specialist, realized it was time to unpack her own family trauma. After learning details of the prosecutorial misconduct, Amy and her sister, Nancy, traveled to New Orleans to meet the man wrongfully convicted of killing their father. In the book *Fighting Time* Isaac Knapper and Amy Banks narrate the story of their thirty-six-year journey from murder to meeting with clarity, humility, and vulnerability. This evening we welcome Amy Banks to speak about her personal story and touch upon elements of the book.

Dr. Amy Banks is a Founding Scholar at the International Center for Growth in Connection (ICGC) and a Senior Scholar at the Wellesley Centers for Women. She is the first person to bring relational-cultural theory together with neuroscience and is the foremost expert in the combined field. She has spoken throughout the country on "The Neurobiology of Relationship" and has an ongoing passion to spread the message that we are hardwired for connection.

GIVE THE GIFT OF LEARNING!

LCE Gift certificates do not expire and can be applied to any and all of our offerings, year round. **Call 781-862-8043, or email lce@lexingtonma.org for more information.**

The Book of Delights

WITH ROSS GAY

Monday, May 2, 2022 • 7:00-8:30 pm • Zoom, \$15 • SBOD

In *The Book of Delights*, one of today's most original literary voices offers up a genre-defying volume of lyric essays written over one tumultuous year. The first nonfiction book from award-winning poet Ross Gay is a record of the small joys we often overlook in our busy lives. Among Gay's funny, poetic, philosophical delights: a friend's unabashed use of air quotes, cradling a tomato seedling aboard

an airplane, the silent nod of acknowledgment between the only two black people in a room. But Gay never dismisses the complexities, even the terrors, of living in America as a black man or the ecological and psychic violence of our consumer culture or the loss of those he loves. More than anything else, though, Gay celebrates the beauty of the natural world—his garden, the flowers peeking out of the sidewalk, the hypnotic movements of a praying mantis.

Ross Gay is the author of four books of poetry: *Against Which*; *Bringing the Shovel Down*; *Be Holding*; and *Catalog of Unabashed Gratitude*, winner of the 2015 National Book Critics Circle Award and the 2016 Kingsley Tufts Poetry Award. His new poem, *Be Holding*, was released from the University of Pittsburgh Press in September of 2020. His collection of essays, *The Book of Delights*, was released by Algonquin Books in 2019. Ross is also the co-author, with Aimee Nezhukumatathil, of the chapbook "Lace and Pyrite: Letters from Two Gardens," in addition to being co-author, with Rosechard Wehrenberg, of the chapbook, "River." Ross is a founding board member of the Bloomington Community Orchard, a non-profit, free-fruit-for-all food justice and joy project. He also works on *The Tenderness Project* with Shayla Lawson and Essence London. He has received fellowships from Cave Canem, the Bread Loaf Writers' Conference, and the Guggenheim Foundation. Ross teaches at Indiana University.

The Invisible Kingdom:

REIMAGINING CHRONIC ILLNESS

WITH MEGHAN O'ROURKE

Thursday, May 26, 2022 • 7:00-8:30 pm • Zoom • \$15 • **SINV**

A silent epidemic of chronic illnesses afflicts tens of millions of Americans: these are diseases that are poorly understood, frequently marginalized, and can go undiagnosed and unrecognized altogether. Renowned writer Meghan O'Rourke delivers a revelatory investigation into this elusive category of "invisible" illness that encompasses autoimmune diseases, post-treatment Lyme disease syndrome, and now long COVID synthesizing the personal and the

universal to help all of us through this new frontier. Drawing on her own medical experiences as well as a decade of interviews with doctors, patients, researchers, and public health experts, O'Rourke traces the history of Western definitions of illness, and reveals how inherited ideas of cause, diagnosis, and treatment have led us to ignore a host of hard-to-understand medical conditions, ones that resist easy description or simple cures. And as America faces this health crisis of extraordinary proportions, the populations most likely to be neglected by our institutions include women, the working class, and people of color. Blending lyricism and erudition, candor and empathy, O'Rourke brings together her deep and disparate talents and roles as critic, journalist, poet, teacher, and patient, synthesizing the personal and universal into one monumental project arguing for a seismic shift in our approach to disease. *The Invisible Kingdom* offers hope for the sick, solace and insight for their loved ones, and a radical new understanding of our bodies and our health.

Meghan O'Rourke, award-winning poet, nonfiction writer, and acclaimed editor, is the author of the poetry collections *Sun In Days*, *Once*, and *Halflife*, as well as the memoirs *The Invisible Kingdom* and *The Long Goodbye*. The recipient of a Guggenheim Fellowship, a Lannan Literary Fellowship, two Pushcart Prizes, and the inaugural May Sarton Poetry Prize, among her many other awards, O'Rourke writes for *The New Yorker*, *The Atlantic Monthly*, and is the editor of *The Yale Review*. O'Rourke resides in Brooklyn, where she grew up, and Marfa, TX.

Hubble's New Discoveries & the State of Ancient Galaxies

WITH DR. KATHERINE E. WHITAKER

Thursday, May 19, 2022 • 7:00-8:30 pm • Zoom • \$15 • **SHUBB**

As an observational extragalactic astronomer, **Dr. Katherine E. Whitaker** studies galaxy formation and evolution over the past twelve billion years of cosmic time and is Assistant Professor in the Physics Department at the University of Connecticut. In addition to her position at UConn, she is also an associate faculty at the new Cosmic Dawn Center in Copenhagen, Denmark. Dr. Whitaker and her students actively collaborate with DAWN, working towards pushing the detection of quiescent "red and dead" galaxies even earlier in time (within a billion years of the Big Bang itself!) in an effort to understand the detailed physics of the structures and underlying stellar populations of these early massive galaxies. With exquisite Hubble Space Telescope imaging and spectroscopy, Dr. Whitaker and her colleagues continue to explore the rich uncharted territory of the distant universe. Our understanding of the cosmos is fundamentally tied to the study of galaxies, the birthplace of all stars and life itself. As we reveal how galaxies are evolving from the earliest times to the present day, we are continually piecing together an intriguing timeline of the cosmos.

In Search of Double Asteroids from a Backyard Observatory

WITH DON PRAY

Sunday, May 1, 2022 • 3:30-5:00 pm • Zoom • \$15 • **SDAB**

Don Pray is an amateur astronomer who has turned his life-long interest in all things "space" into the pursuit of double asteroid systems, also known as binary asteroids. He's done this by assembling telescopes from off the shelf components as well as making many parts in his basement. Don uses a technique called photometry (brightness measurements) to discover and characterize binary systems. In recent years, he has discovered the binary nature of more asteroids than any other amateur observer. He often collaborates with other amateurs and professionals and is a member of the Binary Asteroid Photometric Survey team conducted by Dr. Petr Pravec of the Czech Republic. Part of the survey's mission is to determine the percentage of binaries in the general asteroid population, but also to determine other physical properties of these systems. He has recently brought on line a 25" diameter reflecting telescope. In 2003, he was the co-discoverer of the binary nature of the Didymos binary system, to which NASA has recently launched the DART impactor spacecraft to test how to alter the orbit of an asteroid.

Regardless of residency, Lexington Community Education online classes, lessons, and events are **Open to All**.

The Influence of Billie Holiday

ON SINATRA, ABBEY LINCOLN, CARMEN MCRAE,
AND MORE WITH DR. LEWIS PORTER

Sunday, May 15, 2022 • 3:00-5:00 pm • Zoom, \$20 • **SB&L**

Dr. Porter previously shared his extensive unpublished research on Holiday. Now, after a quick review of some of that info on Billie, he delves into the many singers who were influenced by her, beginning with Sinatra (!) and moving on to Carmen McRae, who knew Billie in the late '30s, Abbey Lincoln, who was an under-recognized songwriter, and others. We will even watch some of

Audra MacDonald's one-woman show where she played Billie!

Exciting Big Band Jazz from the '30s to Now!

WITH DR. LEWIS PORTER

Sunday, Jun 5, 2022 • 3:00-5:00 pm • Zoom • \$20 • **SEBB**

Big bands developed gradually during the 1920s, growing from small groups of 5 or 6 pieces to 12 and eventually 15 musicians and more. Of course they primarily played in ballrooms, and composers realized that, as long as they didn't lose that danceable beat, they could be as daring and experimental as they wished to be. Since the 1950s, many bands performed in settings for listening, and creative composers brought forth beautiful colors and effects. We'll hear stunning sounds from the bands led by Ellington, Lunceford, Goodman, Toshiko Akiyoshi, Maria Schneider, Thad Jones, and many others!

Dr. Lewis Porter is a celebrated and Grammy-nominated jazz pianist who has performed many times for Lexington Community Ed with noted stars. As an award-winning author and long-time professor at Tufts, Brandeis, and Rutgers, he is in demand everywhere for his entertaining and enlightening lectures. He is the author of *John Coltrane: His Life and Music*, the only Coltrane biography endorsed by John's son, saxophonist Ravi Coltrane, as well as by Jimmy Heath, Dan Morgenstern, and many others. He is also the editor of the John Coltrane Reference, a big "day by day" listing.

Welcome to Time & Space

WITH PAM KRISTAN

Tuesday, May 17, 2022 • 7:00-8:30 pm • Zoom • \$15 • **SWTS**

Humans have thoughts, desires, and hopes that range far and wide. Our minds generate unlimited possibilities, joys and fears, worries and relief. It's all too easy to forget that as humans, we still operate within the limits of time and space. When we forget those limits, we can get into trouble. In this on-line presentation Pam builds the bridge between the big, unlimited issues and the nitty-gritty details of daily life. She lays out the challenge, offering pithy

practices, sensible strategies, and humorous takes on how to translate intentions into actual life. It's a tightrope walk worthy of a standing ovation. Even so, it's what we need to learn – little by little, starting where we are and moving in the direction of where we would like to be. Like the tightrope walker, we need to be aware of what's going on within us and around us. This isn't easy. The practice can evoke scads of negative emotions – fear, frustration, anger, despair. We will need to make choices – also not easy! However, by being awake to ourselves and reality as it stands, we can exercise power and agency, and move along that tightrope towards what we desire.

Pam Kristan has offered time management, communication, and personal organization skills workshops, retreats, and consultations for over 30 years. She is the author of *Awakening in Time: Practical Time Management for Those on a Spiritual Path* and *The Spirit of Getting Organized: 12 Skills to Find Meaning and Power in Your Stuff*. She's taught at The New York Open Center, the Psychology Networker Annual Symposium, Rowe Conference Center, and other venues. Pam gained national recognition by moderating National Take Back Your Time Day Speak-Outs in Boston. The first Time Day event at Faneuil Hall was the largest in the country. Her work has been featured in *Prevention* magazine, *Men's Health*, the *Boston Sunday Globe*, and various broadcast media.

Creating Community/ Around Town

We Are Always Looking for Excellent Teachers & Topics

The sage Ramakrishna is quoted as saying, "When the flowers blossom, the bees come uninvited." Here at Lexington Community Education we would rather like to think of the blossom as an open invitation to the bees, and as the quote relates to LCE we also like to think of our instructors and the topics they teach as the providers of the flower essence of beauty and fragrance that intellectually draws students here. We are always looking to expand our educational garden, and we invite you to consider sharing your interests, expertise, and shared humanity with our vibrant learning community as a LCE instructor. Click on the *About Us* tab on our website and fill out a course proposal on the *Looking for Excellent Teachers* page. It often happens that our teachers start as LCE students, and similarly our LCE teachers have been known to enjoy our events and classes as well. Some teachers volunteer their time, most are paid for their teaching, and all receive a discount on tuition for LCE classes and events during the terms they teach. We will look forward to hearing from you!

Humanities

NEW Sartre and Anouilh: Classical Drama Made Modern

Instructor: Tracy Marks

Modern interpretations of classical drama are not only enjoyable to read and watch - they also raise important issues relevant today. Reading Anouilh's *Antigone*, we will explore the conflict between individual conscience and the state. Reading Sartre's *The Flies*, based on *Oresteia*, we will consider the corrosive influence of guilt, and the controversy of fate/conditioning vs. free will. In class on Zoom, we will read aloud, discuss the plays, watch video clips of performances, and compare scenes from the modern dramas with their Greek sources. PDF copies of the scripts will be provided.

HS&A, 4 Mondays, 12:30-2:30 pm. Begins April 4, Zoom, \$95/Seniors \$80.

NEW Charlotte Bronte's *Jane Eyre*

Instructor: Tracy Marks

Jane Eyre by Charlotte Bronte is one of the most beloved, well-written and psychologically meaningful 19th century novels. In this online course, we will explore the story, characters and symbolism, while also viewing and discussing clips of key scenes from four *Jane Eyre* films. Special attention will be paid to Jane as a self-made young woman seeking autonomy within a relationship, and to "the madwoman in the attic", symbolic of Jane's repressed anger. Students should read the first eight chapters by the first session. Any edition of *Jane Eyre* is acceptable but the Norton Critical Edition is recommended.

HJAN, 6 Fridays, 12:30-2:30 pm. Begins April 29, Zoom, \$145/Seniors \$115.

NEW Shakespeare's *The Tempest*

Instructor: Tracy Marks

The Tempest, Shakespeare's farewell to his art, has captured the imagination of audiences and readers for centuries, and continues to unfold its multi-layered meaning and magic. Together, in this online course, we will read and explore

this richly evocative play and its many themes, including the father/daughter relationship, responses to victimization, the overcoming of revenge behavior, and the power of creative expression. We will also view video clips from Shakespearean productions, and the sci fi spin-off, *The Forbidden Planet*.

HSTE, 4 Mondays, 12:30-2:30 pm. Begins May 9, Zoom, \$95/Seniors \$80.

NEW Shakespeare's *The Merchant of Venice*

Instructor: Cammy Thomas

In this play that blends elements of comedy and tragedy, its most famous character, Shylock the Jew, calls his Christian attackers to account, saying "If you prick us, do we not bleed? If you tickle us, do we not laugh? If you poison us, do we not die? And if you wrong us, shall we not revenge?" But he also demands to be paid the actual pound of flesh his debtor owes him. What is the play's attitude toward Jews, who had not been allowed to live in England for over 300 years at the time the play was written in 1596? What are the attitudes toward commercial and political power, toward gender roles? How can we understand the play now? *The Merchant of Venice* has been much argued over recently, sometimes taken off syllabi. Yet it engages with issues of discrimination, cruelty, and mercy in ways that are hard to forget. Let's see what we make of it in our discussion. No homework due the first night, which will be an introduction.

HMOV, 6 Thursdays, 7:30-9:00 pm. Begins April 28, Zoom, \$100/Seniors \$85.

Introductory Astronomy

Instructor: Pedro Lilienfeld

This introductory course is intended to provide a basic understanding of our place in the universe in light of the latest scientific observations and discoveries. Stunning graphics and photos illustrate the lectures. Join us for a fascinating look at the evolution of human thought and knowledge about the earth and the cosmos through the ages, from Babylonian and Greek antiquity, through the Middle Ages, the Renaissance, the Enlightenment, the 19th century, and finally to the unprecedented present expansion of our detailed understanding

of the universe. The course then looks at our solar system and its planets, followed by a review of star evolution and the location of our solar system within the Milky Way galaxy, the formation of the elements, supernovas and pulsars and black holes. This is then followed by our present knowledge about galaxies, supergiant black holes at their centers, quasars, and dark matter. The recent detection of gravitational waves will be discussed. Concepts such as dark energy, the age, size, dynamics and composition of the universe will be introduced, followed by the latest thoughts about the multiverse. The principal methods and tools of today's Astronomy are discussed. The course concludes with a review of the prevalent thoughts about the probability of extraterrestrial life and intelligence in the context of both the exciting discoveries of extrasolar planets and the history of life on earth. Enrico Fermi, the notable Italian physicist, asked Where Are They? Can we answer his question? Math familiarity is not expected.

HINA, 5 Wednesdays, 6:30-8:30 pm. Begins May 11, Lexington High School, Room 220, \$110/Seniors \$85.

NEW Native American Art & Artists in New England

Instructor: Joan Lester

In her book *We're Still Here: Art of Indian New England*, Joan Lester writes that Native American Art "reveals an ongoing, though continuously evolving, relationship between the Indian past and the Indian present in New England. This in-person course will present the artwork, creativity, and resiliency of a selection of Native New England artists including Stan Neptune (Penobscot), Clara Keezer (Passamaquoddy), Tomah Joseph (Passamaquoddy), Linda Coombs (Aquinnah Wampanoag), David Moses Bridges (Passamaquoddy), and Gladys Widdins (Aquinnah Wampanoag). Joan Lester has had the privilege of being educated by Native Americans. She taught Native American Studies and Native American Art at Tufts University for many years and continues to support Native American issues. Instead of a textbook the class will study and work with art objects that Joan will bring to each class. We will meet in a well ventilated classroom, and

NEW Art Keeps Us Human

Instructor: Jane Blair

Art teaches. Art communicates. Art has humor, adventure and passion. Art matters! People are the only living creatures who make art. It is a uniquely human activity, and the sole reason we have an advanced civilization. We use visual images to communicate with one another as a species. Art transcends language, different cultures, time and distance. It keeps us connected to one another. It keeps us human. Join us for a mini-history of western civilization through art, from the caves to the shuttle, to see and understand how art and civilization depend upon each other. Be sure to bring your sense of humor and your best sense of the essence of expressing the human experience through image, color, and form.

NEW American Art in Three Parts

Instructor: Jane Blair

Part I (1776 -1900): American artists have been like America itself, pioneering, bold, and independent. Early American artists had their roots firmly planted in European traditions but explored their own frontiers and evolved their own

unique flavor, forged in the struggles of the birth of a nation. **Part 2 (1900 -1950):** The American independent spirit pushed the boundaries of acceptable European art traditions, and in the early part of the 20th century Americans began to develop their own unique voice; the AshCan School, the flowering of photography, and the consciousness of Social Realism were just some of the new developments that reflected the history of those times.

Part 3 (1950 -1990): In the second half of the 20th century an explosion of creativity occurs on this side of the ocean. American Art grows up and demonstrates its own unique personality; innovative, and sometimes controversial. Join us for a look at how art in America evolved in the modern era, from Pop Art to Grandma Moses, how it took the seat of power with all its new directions, energy and nerve. You can't "like" it all, but you may go home with more than you thought!

NEW British Slavery and Abolition

Instructor: Mark Andersen, Ph.D., CFA

American schools focus almost exclusively on the US experience of slavery, abolition and civil rights. In this course, we introduce students to one of the most significant countries in slavery and abolition: Great Britain. We cover the British role in the slave trade, how West Indies' plantation economies worked, and the mass movement which led to an end to the British slave trade, then

emancipation, and its aftermath. This course explores slavery and labor in relation to capitalism, corporate and economic institutions, special interests, mass movements, and the West Indies experience of enslaved people. Students will read primary and secondary materials before each session and discuss how these readings relate to meaning, memory, politics, human rights, economics and history.

NEW Antebellum America and the Coming of the Civil War

Instructor: Andrew Chatfield, Ph.D.

After the US Senate ratified the Treaty of Ghent in 1815, which ended the War of 1812, the United States embarked on a new direction in her domestic and foreign affairs. There was a new national pride, patriotism, and confidence that had not hitherto existed. Yet the country's original sin of slavery, sanctioned by the US Constitution, still existed in the South. In this course we will examine the cultural, political, economic, racial, and social forces that drove the United States during the period of 1815-1860. We will parse the different regions of the country and the politicians that represented them, like Daniel Webster of Massachusetts, John Calhoun of South Carolina, and Henry Clay of Kentucky. We will also closely examine major events like the Missouri Compromise of 1820, the nullification crisis in South Carolina, the populist presidency of Andrew Jackson, Texan independence, the Trail of Tears, the Mexican War, the Compromise of 1850, and the tumultuous, divisive decade that preceded the election of Abraham Lincoln in 1860. This course will serve as a brush-up for history buffs, and as a source of knowledge and analysis for curious individuals trying to gain insight into perhaps the most fractured and divided period in American history.

NEW Slavery, Abolition and the Underground Railroad in Massachusetts

Instructor: Gordon Harris

In 1765, Jenny Slew, who had been enslaved in Ipswich, was the first person in America to successfully sue for her freedom. The Massachusetts Supreme Court abolished slavery a dozen years later, but under the Federal Fugitive Slave Act, anyone who helped prevent the recapture of a runaway slave could be fined \$1000.00. Tensions arose between ardent abolitionists and those who would rather avoid the discussion, dividing families, churches and communities throughout New England. Men's and Women's Anti-Slavery Societies were formed, and fugitive slave seizures in Boston of Shadrach Minkins, Thomas Sims, Joshua Glover, and Anthony Burns in 1854 sparked actions by anti-slavery activists known as the Boston Vigilance Committee. In Ipswich, the Meeting House Green neighborhood was a hotbed of anti-slavery sentiment. A network of the Underground Railroad ran north along the coast from Boston to Marblehead, Salem, Beverly, and Danvers, splitting into three trails, one continuing through Ipswich and Newburyport into New Hampshire. Ipswich town historian Gordon Harris takes us through the timeline of events on the national and local levels that culminated in the Civil War and the Emancipation Proclamation.

First Period Homes of Ipswich, Massachusetts

Instructor: Gordon Harris

Of the roughly 300 houses that were constructed (in part or in whole) during the first century of English settlement of Massachusetts, 59 are in Ipswich. We will discuss features to search out to help you identify first Period structures based on appearance, layout and architectural features that distinguish them from the succeeding Georgian era. demonstrating First Period construction techniques will be accompanied by exterior and interior photographs from several of the best-preserved Ipswich First Period houses. The earliest builders to settle the Massachusetts Bay Colony were trained in English post-Medieval techniques, and adapted this form to the New England climate. Houses constructed after about 1720 (Second Period homes) are generally distinguishable by symmetry, proportion and interior decoration. While most First Period houses were enlarged or modified to present this Second Period appearance, renovations in recent decades have exposed and restored earlier elements.

Puritan Gravestones

Instructor: Gordon Harris

The Old North Burying Ground in Ipswich, Massachusetts dates to the town's founding in 1634. Tombstones in the oldest section feature lunettes with simple faces carved by John Hartshorne and the Leighton family of Essex County, as well as the winged death-heads carved by Boston's William Mumford and the Lampson family. By the mid-18th Century, gravestones of the more wealthy inhabitants featured artistic life-like faces with wings and three-dimensional scrolling typical of the Park family of carvers. Join town historian Gordon Harris for a virtual tour as he shares the stories of the town's earliest inhabitants, visits their tombstones and many of their houses, still standing.

Music Appreciation

The Poetry of Popular Song

Instructor: Brian M. O'Connell

This series of lectures will present the ways in which poetry intersects with song and popular music. There are very many examples in popular music of delightful poetry interwoven with unforgettable tunes. Most everyone remembers the melodies and catchy rhythms, as well as the artist who brings the song to life, but quite frequently the poetry in the song slips under the radar – rarely noticed. Looking at varying genres including musical theater, standard tunes (often referred to as the Great American Songbook), folk music (both traditional and modern), and rock songs in our quest to discuss the poetry within the song, learn background information about the writers and listen to musical interpretations by various artists.

NEW Exciting Big Band Jazz from the '30s to Now!

Instructor: Lewis Porter, Ph.D.

Big bands developed gradually during the 1920s, growing from small groups of 5 or 6 pieces to 12 and eventually 15 musicians and more. Of course they primarily played in ballrooms, and composers realized that, as long as they didn't lose that danceable beat, they could be as daring and experimental as they wished to be. Since the 1950s, many bands performed in settings for listening, and creative

composers brought forth beautiful colors and effects. We'll hear stunning sounds from the bands led by Ellington, Lunceford, Goodman, Toshiko Akiyoshi, Maria Schneider, Thad Jones, and many others!

THE "RING" IN SPRING AND MET HD OPERAS

NEW The "Ring" in Spring and MET HD Operas

Instructor: David Collins

This season we will bring our survey of Wagner's operas to a close by an introduction to his monumental tetralogy, *Der Ring des Nibelungen* (The Ring of the Nibelung). We will survey each of its four music dramas, "The Rheingold", "The Valkyrie", "Siegfried" and "The Twilight of the Gods". Our approach will center on the plot, musical themes and issues raised in these works. Great music, an exploration of good and evil and the creation and destruction of a whole world are all contained in Wagner's magnum opus. We will also take a couple of evenings to prepare for the Metropolitan Opera's HD presentation of two operas. The first is Puccini's last opera, "Turandot" which is one of the MET's most lavish productions. "Turandot" is full of memorable melodies including the famous tenor aria, "Nessun dorma" - made famous by the three tenors in concert. This opera was Puccini's last opera. He died before finishing it and Toscanini was in charge of its completion. The second opera is "Don Carlos", Verdi's searing drama of love, politics and religion. It is being done in its original French version by the MET for the first time. The musical characterization and the character interactions create some of the most dramatic and emotional moments of any of Verdi's operas. It stands as a monument to Verdi's attempt to combine French Grand Opera with Italian Lyricism. Join us, in this Zoom class, as we use video and audio to explore these operas.

How Was That a Hit? Pop Music: 1950s-1980s

Instructor: Gregory Leschishin

This class discusses and illustrates how pop music of the 1960s through the 1980s became hits. The charts were determined by airplay and sales calculated by methods over which only a few people had control. Hundreds of songs were released by many independent record labels seeking the opportunity to snag a hit. Some were natural hits; others were by accident or luck or both! Cash Box Magazine was one of the prominent music publications that Dick Clark, Solid Gold and Rick Dees' Weekly Top 40 used to count down the hits. Relive and rediscover your 45 collection with this fun class!

NEW The Art of Literary Translation

Instructor: Barbara Thimm

Writing is an open field of invention, while translation offers a limited space in which to observe and practice the rules of writing. It should come as no surprise that so many writers become translators at some point in their careers. There is no better writer's workshop. — Alice Kaplan

Are you interested in reading and writing? Did you study a foreign language but haven't used it for many years? Literary translation is a rewarding intellectual and creative practice. It asks us to pay close attention to a wide variety of elements in the original, such as vocabulary, syntax, rhythm, and to think about the possibilities of transforming our observations into a new literary text. This class offers an introduction to literary translation: we will compare and contrast multiple translations of a single text, discuss different approaches to translating, and try our hand at a translation project. By the end of the class, you will have developed a deeper understanding of many facets of literary translation practice. All language levels are welcome.

The haiku is a small, but powerful poem! The way of haiku is about staying open, observing closely, and recording little moments in our day. Writing haiku can help us find our gratitude. This supportive writing workshop is designed for folks who have taken haiku classes or have written haiku previously. In this six-part on-line writing class, we will wade further into the haiku pond. We will learn more about key elements of haiku. We will also study other related Japanese forms of poetry, including senryu (haiku about human nature), haiga (haiku linked with visual art), and haibun (haiku linked with prose). We will try our hand at writing prompts during classes and ones that are designed as opportunities to enjoy haiku moments outside of classes.

Drawing Outside of the Box

Instructor: Annie Zeybekoglu

So often, the expectations and judgments of others have a tremendous (and unfairly persuasive) impact on how we feel about ourselves as artists, and the confidence we have in our creative potential. Andy Warhol cautioned us: "Don't think about making art, just get it done. Let everyone else decide if it's good or bad, whether they love it or hate it. While they are deciding, make even more art." Drawing reveals how we think: it is always about more than a moment. We each bring different energies, different patterns of association, different preferences to how we express ourselves. Drawing is as much a discovery of those things as it is a development of technique or skill. When your pencil first touches the paper, something intensely personal happens, something worth pursuing and worth celebrating. This class is about experimentation, honoring process over product, and beginning to recognize your "visual voice". We will meet each week on Zoom for 30-40 minutes. You will receive an assignment or "prompt" for the coming week on which you should spend about an hour. You can email your drawings to the instructor before the next class for individual feedback. Open to all levels.

Drawing is Thinking

Instructor: Annie Zeybekoglu

How often have you said, "I can't draw!"? In this class, you'll discover how accessible drawing can be and how to express your thoughts visually. Everyone knows we each perceive our world differently. Indeed, the way an artist thinks is revealed in the way they draw. Through simple exercises like "Connect the Dots" and "What's in a Doodle?", as well as in conversations about artistic trends, the styles of well-known artists and a chance to try out different drawing techniques, you will learn to express your individual

views. In addition to shared weekly Zoom sessions, you will have an opportunity to get individual feedback on your visual response to each lesson. As anyone who has ever given a crayon to a child knows, the urge to “make a mark” is instinctive. As you explore the world of drawing and what excites you, you will learn new ways to express your unique vision.

Color and color theory form the foundation of art as well as design. This class will explore color theory, increasing your understanding and appreciation of the different ways that artists use color. There will be some hands on exercises with paint to demonstrate the different aspects of Chevreul's Colour Theory. You will go home with understanding the difference between hue, value and saturation and how to use all three to gain the effect you want.

Our first exercise will be laying a flat wash. Designing and Making Paper Quilts

Instructor: Annie Zeybekoglu

Quilt design and quilt-making are among the most treasured of American Craft traditions. Their imaginative designs range from the more traditional (log cabin, patchwork, double-ring patterns) to the unique creations of the women of Gee's Bend, or the imaginative variations designed by con-temporary quilt makers. It is a tradition that embraces wonderful social aspects as well: the gatherings or "quilting bees" where quilters meet to collaborate on the making of a quilt, not to mention the functional use of quilts bringing comfort to one's home. In this class, you will discover how these beautiful designs can be created from paper to display as wall art. You may decide to use a time-tested traditional pattern or to design a pattern of your own. Using your template as "pattern pieces", you will have the fun of selecting decorative papers, magazine or catalog cuttings, or even type samples, that can be used in imaginative combinations. After creating a 12" square, you will be able to repeat the process as many times as you'd like to create a wall decoration.

ESTATE PLANNING 101

with Rebecca O'Brien, p. 29

You Can Afford College If...

Instructor: Donald Anderson

If... you plan in advance; you understand the financial aid process; and you act early enough to be successful. Financial aid goes to the families who plan in advance—ideally before December 31 of the child's sophomore year of high school. This course will teach you the concepts and strategies that will help you maximize your financial aid by understanding the process, and how implementing strategies may increase a family's eligibility even if you have a "high income" or own a business. The greatest amount of financial aid goes to the families who act in the years before college. Remember: procrastination equals less financial aid. All schools are not alike, so it is important to know your options and opportunities. A free financial aid analysis will be available to all attendees. Tuition is \$25 for two adults in the household. For more information please visit our website at www.collegefundingadvisors.com.

coconut and curry leaves and particularly coconut oil. South Indian cooking is even more vegetarian-friendly than North Indian cooking and incorporates fewer spices and simpler ingredients. Come, explore this cuisine and learn to make Uttapam (rice and lentil crepes made with cream of wheat, cumin and yogurt), accompanied by a filling of onion and potato bhaji (stew) and a spicy coconut chutney (spread made with fresh coconut, a touch of cilantro, green chilies, lemon and roasted chickpea dal called dalia).

Investing: Just the Facts

Instructor: Glenn Frank

In most areas in life the more time you spend the better you do. In investing, excess time is often counterproductive. First a solid foundation that fits your circumstances and the current markets needs to be established. Then unless something truly significant happens, you may want to "stay the course". For example, are US stock valuations "significant" enough today to change course? We will candidly discuss ETFs versus mutual funds, annuities, paying

off your mortgage, worldwide stock valuations, correlations, ESG, hedge funds, Bitcoin, the danger of fixed income portfolios, and consensus long-term forecasts. If you are simply looking to have the best chance of accomplishing your long-term financial goals, take this interactive class.

Do it Yourself or Financial Advisor?

Instructor: Glenn Frank

This class offers a step by step methodical approach for an answer that fits you. This may be the most important financial decision you can make. Given misinformation, conflicts of interest and complexities it can also be the most difficult financial decision. The "New Normal" induced by COVID makes it even more challenging today given unprecedented uncertainty. Navigating the 5 step investment process is crucial to success. The fundamental questions are: what is your personal preference? What are your needs? Will an advisor fill those needs? Will they add value in excess of their cost? Can you trust the advisor to put your needs over their own? Can you trust yourself to make informed and unemotional decisions? Advisors specialize. Practices are not one size fits all. If you are not a fit, it will not work.

What are the tough questions to ask an advisor and yourself? This class should improve your ultimate results by either improving your relationship with your existing advisor or by giving you added resources and considerations while handling finances on your own.

Instructor: Ami Stix

Zumba is a cardio fitness program combining a variety of Latin and international music with dance moves. Using music from around the world with dance, students will experience everything from salsa to belly dance to Bollywood. Each class incorporates the concept of interval training by alternating fast and slow rhythms for one hour of aerobic exercise. This is an all-levels class and NO dance knowledge or experience is required. The only requirements are sneakers, a smile and a bottle of water.

(Although, a towel might be a good idea.) This class encourages students to participate comfortably at their own pace and level--wherever they may be on their fitness journey. According to the Mayo Clinic: "aerobic exercise reduces health risks, strengthens your heart and boosts your mood". It's a simple formula: feel the music, have fun and dance. Please note: this class is offered simultaneously in-person and on the Zoom platform. Please indicate how you plan to participate (in person or on Zoom) upon registration.
